Acquiring in a box

Business challenge

Acquirers and Merchants need seamless payment options to pay and get paid across form factors and channels in a safe, secure and scalable manner. Merchants should focus on their core business rather than worrying about payments and evolving regulations.

With convergence of payments, commerce and banking, merchants expect value added services, emerging payment methods through out of box integration allowing them to focus on the end consumer experience. Merchants need digital solutions not only to serve their customers but to serve their banking, lending, Payables/Receivables, tax, accounting, CRM and various services to enable their business grow.

Product Overview

Wibmo Areion 'Acquiring in a Box' offers full spectrum commerce gateway services with highest payment success rate for Merchants, Aggregators, Acquirers and Fintechs with simple onboarding and flexible payment/alternate payment options, credit, Pay Later options customized to their needs. Acquirers have the flexibility to choose from a white label, BIN sponsor or a referral implementation model as per the business need.

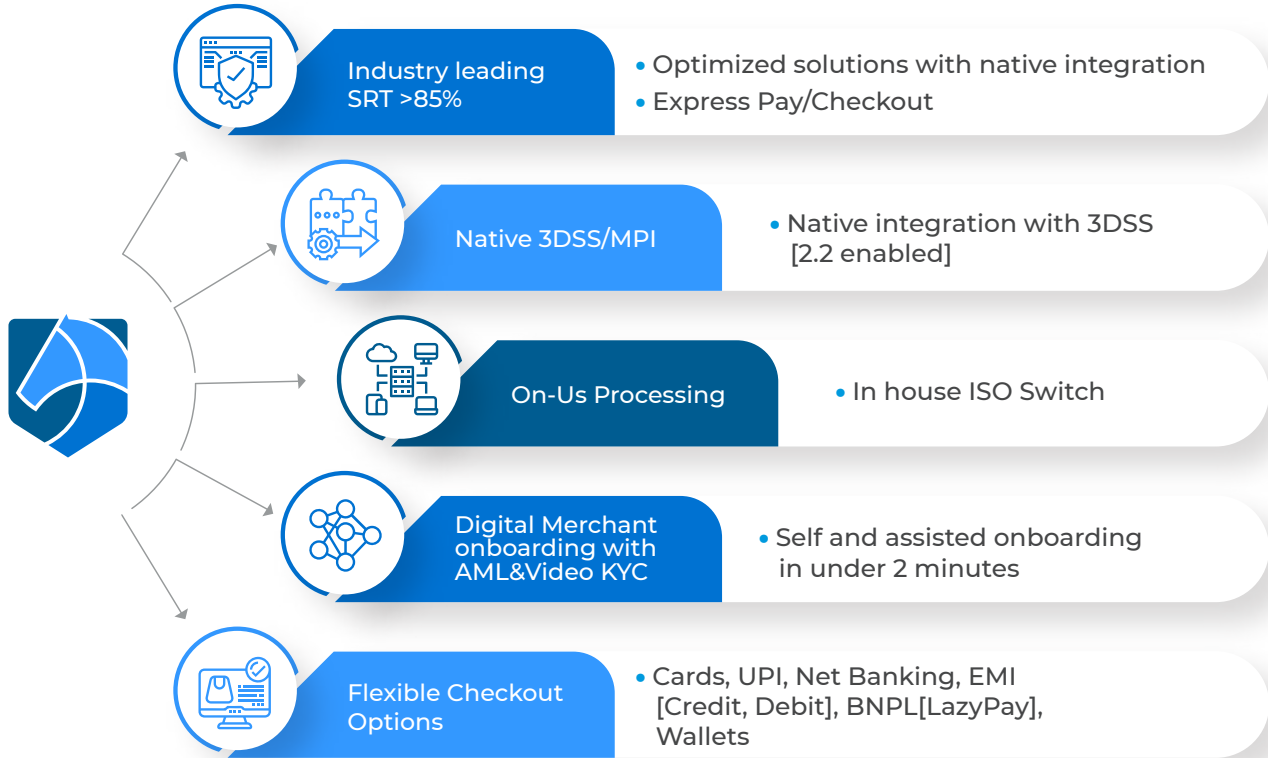

Areion commerce gateway enables Neo banking through a single integration for acquirers or merchants to offer banking services built on open banking standards hosted on cloud.

Areion 'Acquiring in a Box' integrates natively with Wibmo 3DSS, Token vault, ACS, Express Pay, Trident fraud management, 'Neo Banking platform' and Pre paid/wallet platform for optimized customer experience. In addition, multiple partner and card network solutions are also integrated for global coverage.
